

PROCESS TEMPLATE

Off the Wall Challenges are a creative new approach to developing content for and sharing informal learning activities, designed and written to deliver an engaging and entirely self-directed experience to the learner. Use this template to create the content for your own Off the Wall Challenge, transforming lengthy lessons into dynamic learning activities that engage, excite and inspire your students.

ACTIVITY

Your title goes here: **short, descriptive, and interesting / catchy.**

Example: 20-5-2-1

TAGLINE

Get students interested with one or two action-oriented imperative sentences.

Example: Explore Your World! Find out more about the space around you!

LEARNING GOAL

One sentence: **Using action verbs**, describe what students will be doing.

Example: Analyze your surroundings and compile media that tells a story about your environment.

WHAT YOU NEED

List items needed to complete this challenge.

Example: Pens, paper, digital camera, and digital video camera.

DIRECTIONS

Speak to the students here, using imperative language to outline their challenge.

No filler—try your best to be clear and concise!

Example: 1. Split up into small teams of two to three people.

KEYWORDS/TERMS

Define any new vocabulary that appears on the poster that is tied to the learning goal or directions.

Example: Statistic- a piece of data from a study of a large quantity of information.

WHEN YOU ARE DONE

Let students know what they'll need to do to reach their goal.

Example: You've gathered enough once you've compiled 20 images, 5 statistics, 2 stories, and 1 video. Next, share what you've found! Make a map, create a quick presentation, or write a blog post that tells the story of the area you explored.
